5th Sunday of Easter

May 19, 2019

Capital Campaign Update: This week, work has continued on the water drainage system on the south side of the church. This will redirect water away from the foundation of the church, so as to prevent flooding in the basement. Work is also underway in the storm shelter (southeast locker room) in the gym. It too has been undergoing some flooding from rising ground water. In addition, the crew is addressing the water damage on the west exterior wall of the gym, as well as the water damage to the walls in those lower level classrooms. Lastly, the flooring crew has begun the final preparations for the tile flooring in the new restrooms and the gathering space of the church. Thank you for your continued patience and your prayers during this time of transition!
